

Product Specification and Technical Data

PRODUCT: BG 401
Brake and Contact Cleaner

PART NO.: 401

TEST DATA:	Test	ASTM Test Method	Typical Test Results
	Specific Gravity (H ₂ O = 1)	D 1298	1.5368
	Boiling Point	D 86	56-123°C (132-254°F)
	Vapor Pressure (psig)		100
	Solubility in Water	Visual	Insoluble
	Appearance and Odor		Colorless/Solvent
	Net Weight, oz. (grams)		10 (283)
	Volume, fl. oz.		6.37

PROBLEM: The performance of braking systems can be inhibited by collected residues such as brake fluid, grease, oil, and moisture on both drum and disc type assemblies. Spark plugs, magnetos, electrical contacts and relays all fall prey to the build-up of moisture and grime.

SOLUTION: BG 401 Brake and Contact Cleaner contains fast-acting solvents which quickly remove brake fluid, grease, oil, moisture, and other residue from both drum and disc type assemblies. Disassembling the brake unit is not necessary when using BG 401 Brake and Contact Cleaner. It displaces moisture and effectively cleans and dries spark plugs, magnetos, electrical contacts and relays. BG 401 Brake and Contact Cleaner evaporates quickly and completely.

- BENEFITS:**
- Quickly removes all residue from both drum and disc type assemblies
 - Improves efficiency of braking systems
 - Aids in the elimination of brake squeal and chatter
