

Product Specification and Technical Data

PRODUCT: BG Vinyl & Leather Cleaner & Conditioner

PART NO.: 464

TEST DATA:	Test	ASTM Test Method	Typical Test Results
	Specific Gravity (water = 1)	D 1298	1.027
	Vapor Pressure, psig @ 21°C (70°F)		40
	Vapor Density (air = 1)		>1
	% Volatiles by Volume		96
	Solubility in Water	Visual	100%
	Appearance		Clear liquid
	Odor		Pine
	Net Weight, oz. (grams)		15 (425)
	Volume, fl. oz.		15.32

DESCRIPTION: BG Vinyl & Leather Cleaner & Conditioner is uniquely formulated to clean as well as condition most leathers and vinyls. It is specifically formulated to restore luster and to keep leathers and vinyls like new longer, unlike soaps which tend to dry out and encourage splitting and cracking. Use BG Vinyl & Leather Cleaner & Conditioner on the colorfast vinyls of automobile tops and vinyls and leathers of automobile, van, truck and boat interiors. It also helps to protect boots, shoes, outdoor furniture, jackets and sports equipment from the damaging effects of harsh weather. This product can also be used on stove, refrigerator and washing machine exteriors; plastic counter tops; stainless steel and chrome fixtures and ceramic tile and marble. NOTE: Not all dyes are colorfast. This product should be tested on an inconspicuous area to ensure compatibility. BG Vinyl & Leather Cleaner & Conditioner is NOT designed for use on suede or absorbent fabrics.

USAGE: SHAKE WELL before using. Wipe off surface dust or loose soils. Spray generously over area to be cleaned. Wipe up with a damp sponge or unsoiled cloth. Buff area to bring up brilliance. Respray as necessary. Stubborn soils or textured surfaces may require the use of a soft brush. Regular application will help material remain soft and in good condition.

BG Products, Inc. accepts no liability for excessive use or misuse of this product.
