

## **Product Specification and Technical Data**

**PRODUCT:** **Class Act™ Headlight Restoration Kit**

**PART NO.:** **CA875**

**COMPONENTS:** #1 Prep, Part No. CA875A  
#2 Clean, Part No. CA875B  
#3 Seal, Part No. CA875C  
Foam Brush  
Paper Cloth  
Latex Gloves (2)  
Multi-grade Sandpaper: 400, 1000, 2000

**PROBLEM:** In as little as two or three years on the road, acrylic headlights may become cloudy from debris that causes abrasions to the lens. Additionally, exposure to weather, pollutants and solar radiation can further diminish the appearance of an otherwise attractive vehicle. It is a problem that affects nearly every vehicle make and model, foreign or domestic. More importantly, visibility can be reduced during night driving.

**SOLUTION:** Fortunately, it is a problem that can be easily solved with headlight restoration. The Class Act™ Headlight Restoration service is a simple process that includes lightly sanding the surface until the cloudy and discolored surface is removed, then applying a protective sealant. The service restores clarity and improves luminosity. Completely safe to use and compatible with all headlight components, it is an economical way to restore lenses to like new condition!

**USAGE:** Directions for use included inside each kit.
